

ART OF HARVESTING

HARVESTING THE FRUITS OF CONVERSATIONS THAT MATTER

11-13 MARCH 2013 - KALUNDBORG - DENMARK

We invite you to join us for a 2 day training in the Art of Harvesting meaningful conversations. The **Art of Harvesting** is the wise companion to the **Art of Hosting** Meaningful Conversations. If we imagine our meaningful conversations as the planting of seeds, then harvesting is the collecting of the fruits that we have grown through those conversations and sharing those fruits with others. Harvesting brings closure to the processes we host, invites our next level of understanding and helps us to collectively see the bigger picture and create a shared understanding together.

PURPOSE

- To explore harvesting as a means to create collective wisdom/intelligence and seed wiser actions
- To practice the integration of harvesting and hosting for strategic and long term development
- To learn of methodologies and practices of harvesting

DURING OUR TIME TOGETHER YOU WILL:

- Gain knowledge about how to plan and design a harvest.
- Learn basic harvesting skills and tools.
- Practice Harvesting as an integrated part of hosting conversations.
- Apply your learning on relevant projects and cases.
- Explore the strategic and systemic impact of good harvest.

PRACTICAL INFORMATION

The Workshop starts Monday 11/3 at 17.00 and end Wednesday 13/3 at 16.00.

SOME QUESTIONS WE WILL EXPLORE TOGETHER...

What is harvest?

How can we use harvest as a foundation for wise decisions and effective action?

How can we make individual and collective meaning of the conversations we host in our communities?

How can the harvest support collective meaning making so that we become smarter and more effective together?
